Computer Sales & Service

At Streamline Computers we custom build each system to our customers specs. If you are unsure of what you need please give a call or send us an email and a sales consultant will contact you and discuss your needs and provide you with a quote.

We have teamed up with Dell computers for new PC sales or we can custom build your PC using all top of the line hardware.

Network Support & Security

Streamline Computers can provide your company with all the benefits of a full-time Network Admin without the full-time expense. Hardware and software installs; computer and printer setups; and especially troubleshooting; we can do it all.

Visit our website and download our Sign-Up form for our "Static Call Discount Program" where you can save big by scheduling regular on-site visits for network support and security checks which can include "backing up" your important data. Or, you can Sign-Up for our "Remote Service Program" and save even more!

With in-field service available 24 hours a day in most areas of Southern California, you can add an "Information Technology" department to your company right now with features that you may have thought were out of your company's reach.

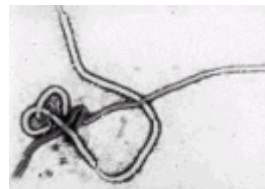

Call now: (909) 985-5755

Virus & Spyware Removal & Protection

It is more important than ever to make sure your PC or network is protected from virus or spyware attack.

If you believe that your system or network has been compromised, don't wait! Pick up the phone right now and give us a call. Our in-field support techs can come to your office, diagnose and repair the problem before you lose important data.

Depending on how destructive their payload, computer viruses can result in a significant loss of data, time, and money. In the best scenario, you may just lose the time it takes to disinfect your

computer. At worst, a mission-critical server may be reduced to little more than an expensive door-stop.

Unfortunately, antivirus software isn't perfect, and there's always some lag between the emergence of a new electronic predator and the availability of virus definitions to protect against it. Moreover, many writers of today's more diverse and sophisticated computer viruses are taking the preemptive step of disabling or removing antivirus software as part of their activation.

Website Development & Hosting

Our award-winning webmaster stands ready to put a fresh face on your old company web site. In addition, we can build your "e-commerce" online system that allows you to sell your products and services over the Internet; and accept credit cards like MasterCard and VISA automatically...

Call today! We will provide a sample "Home Page" at no charge to show you what is possible. If you like it, we will work with you to complete your new web site and keep it well within your budget. Visit us online and take a look at other sites we have built for companies much like yours. Make money with the Internet. That's what it is there for.

Network Design & Installation

As your company grows, the need for a professionally designed and implemented computer network can't be overstated, and when done right, it can save you thousands of dollars.

With over 20 years of networking experience, the team at Streamline Computers is your best choice to design and implement a secure network. Make an appointment today for a competitive bid.

Office Supplies

If your office is ordering supplies from sites like Staples or OfficeMax, you might be surprised how much we can save you!

Go to our website and click on the "office supplies" link. Fill in the quick-form and tell us what product(s) you need. We will do our research and find you the lowest price possible. If you like it, we can usually deliver right to your door the very next day on most items.
